Follow Up on Data Collection Centers in Pennsylvania

Today is another day to stand strong for what we believe in! Having Pennsylvania free of Data Collection Centers is a BIG thing to stand for. It becomes more doable when we stand, each for our own county. The standing becomes even easier if we share resources among ourselves. That is the vision we have, here in Lancaster County.

As promised in the February Newsletter, Lancaster County has worked together to collect information and research to share with our County Commissioners. We are sharing that information and research with you, so that you can use whatever you want, from our efforts, in your own efforts.

You will find the results of our efforts linked immediately following each of our contributions. Feel free to use what ever is of service to you, in your stand in your county.

We went to our Lancaster County Commissioners meeting on Wednesday morning, February 25, 2026. We, as an assembly, had prepared and planned before the meeting. We decided who would contribute what, in what order we would speak, and the logic of the order.

Six of us were from the Community Safety Group of Lancaster, which is the lawful Assembly in Lancaster County. We had one friend who traveled from Dauphin County to join us in presenting to the Commissioners. Then, the unexpected part, was a pastor who came with his own message for the Commissioners, but first jumped in to speak on the subject of Data Harvesting.

Mary Zook took the lead. She was assigned to be the one to shift the atmosphere, in our favor. She spoke from her heart about concern for the country's future and the advisability of hearing the concerns which the rest of us came to share.

Jan Brenneman shared the results of his browsing on the AI Hub web site.

<https://lancasteraihub.com/>

He thanked the Commissioners for taking the county's safety seriously and encouraged them to continue being diligent in their offices.

Vance Stewart shared concerns about the increasing EMF toxicity in our lives. He referenced sources which said no independent research has been done concerning the EMFs associated with Data Collection Centers. [Environmental and EMF Pollution.docx](#)

I, Karen, shared my research of founding documents, which clearly state that we are free to share or withhold personal information. Harvesting the peoples' personal information without permission and just compensation is unlawful and must stop.

[Infringements on the People.docx](#)

Christina shared the many ways elected officials can be held accountable for unlawful behaviors. She cautioned them to be careful how they conduct themselves, moving forward from here. [Infringements on the People's Rights Through Data Collection.docx](#)

The Pastor spoke next, highlighting the prolific ways our data is being harvested; and for what purpose?

Arthur Watkins from Dauphin County spoke last. He was clear in the ways the "Cloud" manifests physically, causing stress and harm to the land, air, water. He also spoke of the burden of the large structures and extra energy needed to support the centers. [AI Data Collection Centers Land Water and Air.pdf](#)

You can watch the meeting unfold by using the link supplied here. Start in at the 16:15 minute mark to get in on our action.

Thank you for the stand you are taking right where you are. Thank you for carrying the concern for the future of our country, close to your heart. Thank you for taking a courageous stand on behalf of Pennsylvania. We look forward to hearing the stories of your experiences concerning Data Collection Centers.

Respectfully Submitted by:karen-sue: Sensenig and :christina-d: otto.

Monthly Focus

Cultivating the incredible power of word and thought is a gift we were given by the Divine. What we think and speak about we fuel energy and power. One realizes how incredible it can be if we but change the habit of our thinking and speaking to be empowering, visionary, blessed and blessing ourselves and others. The world will not change until we change ourselves and cleaning up what we are sowing in the field of our personal life as well as the world at large is most important. It is appropriate to see what needs to be done to change our outer world and if possible do that as well as giving it to the Divine for guidance. It is counterproductive to speak defeat, overwhelm and negatively about others and ourselves. It isn't about being good per se but rather being effective with the gifts we were given.

Become aware of how you are feeling and use that for guidance as one can't monitor the 60,000 thoughts you have per day very effectively. Your emotions, however, tell you when your thoughts are heading in the wrong or right direction. Negative emotion means you aren't using your gifts to create the world you want and giving energy and power to what you don't want. Positive emotions mean you are in the right direction and fueling the vision you want. It truly is that simple.
